Herkules Body Shop Lifts - Increase Productivity with Air

Walled Lake, Michigan, December 14, 2006. Herkules 100% air-powered L-1200 Vehicle Lift offers body shop technicians faster turn around times and less back strain. The lift is powered by Herkules Air Bag technology, a maintenance-free power source. It is safe to use inside paint booths, and removes the possibility of any contaminants ruining a paint job. Raising the vehicle up to an ergonomically correct working height, the L-1200 Lift eliminates the need to bend over, kneel, or squat to work on a vehicle, resulting in increased productivity.

Features of the L-1200 Lift include; Adjustable support arms; Steel ratchet safety stops; Air release valve; Rubber blocks; Easy controls; 6000 lb capacity; 4 1/8" lowered; 36.5" raised; and optional Portability Kit for moving it anywhere in the shop.

For more product information, please contact Herkules at **800-444-4351**, or at info@herkules.us or visit our website at www.herkules.us.

Herkules Equipment Corporation, established in 1984, is a leading manufacturer for the Automotive Paint & Body Repair industry, having designed, manufactured, and patented the first Paint Gun Washer. We have been manufacturing pneumatic lifting equipment for over 20 years, providing Vehicle Lifts for the automotive aftermarket, and Lifting Systems for the manufacturing industry. Herkules also supplies Air Jacks, Handling Equipment, Crushing Equipment, Infrared Curing Lamps, and Vacuum/Dust Extraction Systems.
