Herkules Body Shop Vehicle Lifts - Efficient Drive-on Feature

Walled Lake, Michigan, December 14, 2006. Herkules 100% air-powered L-1200S Vehicle Lift raises the vehicle by the wheels, providing the quickest and most efficient method for loading a vehicle on a lift – just drive it on. The lift can be in-ground mounted and, since it is pneumatic and safe to use in explosion proof areas, can be positioned within a spray booth. Raising the vehicle up to an ergonomically correct working height eliminates the need to bend over, kneel, or squat to work on a vehicle, providing body shops a faster turn around time on every job.

The lift is powered by Herkules Air Bag technology, a maintenance-free power source. There is no need to clean or replace messy fluids. Features of the L-1200S Lift include; Straight up and straight down movement; Removable and locking loading ramps; Steel ratchet safety stops; Air release valve; Easy controls; 5000 lb capacity; 4 1/8" lowered; 36.5" raised.

For more product information, please contact Herkules at **800-444-4351**, or at info@herkules.us or visit our website at www.herkules.us.

Herkules Equipment Corporation, established in 1984, is a leading manufacturer for the Automotive Paint & Body Repair industry, having designed, manufactured, and patented the first Paint Gun Washer. We have been manufacturing pneumatic lifting equipment for over 20 years, providing Vehicle Lifts for the automotive aftermarket, and also Lifting Systems for the manufacturing industry. Herkules also supplies Air Jacks, Handling Equipment, Crushing Equipment, Infrared Curing Lamps, and Vacuum/Dust Extraction Systems.
