Herkules Narrow Cart Positioner - For Ideal Ergonomics

Walled Lake, Michigan, August 12, 2005. Herkules Equipment Corporation, a leading manufacturer of low profile, high capacity pneumatic lifting equipment, is introducing a new Post Lift designed to position industrial carts with narrow casters that typical lifts can not manage. The Post Lift's top plate offers a 3/8" low profile, making it easy to roll on a heavy load, up to 3000 lbs. Push button controls can be free-standing or mounted to the post. Customer can specify preference for either air or electric operation.

The Post Lift, along with other Herkules Cart Positioners, offer an alternative to fork lift truck use in facilities that have the desire to improve safety systems, reduce injuries, and lower truck maintenance costs.

For more product information, please contact Herkules at **800-444-4351**, or at info@herkules.us or visit our website at www.herkules.us

Herkules Equipment Corporation, established in 1984, is a leading manufacturer of low profile, high capacity pneumatic lifting equipment, (standard and custom) including; lift tables; lift & rotates; lift & tilts; human lifts; cart positioners; multiple position turntables; and vehicle lifts.
